# DURAPAN®

## GRP Sandwich Panels

**DURAPAN®** sandwich panels combines the advantages of Duraser GRP sheets as high performance skins and 40 kg/m<sup>3</sup> PU/PIR foams for superior heat insulation.

### Product Structure

- Top and bottom GRP surfaces coated with Diamond Shield high UV protection layer
- Top and bottom GRP sheets contain woven roving reinforcement for high mechanical strength.
- The density of PU/PIR is 40 gr/cm<sup>3</sup>.

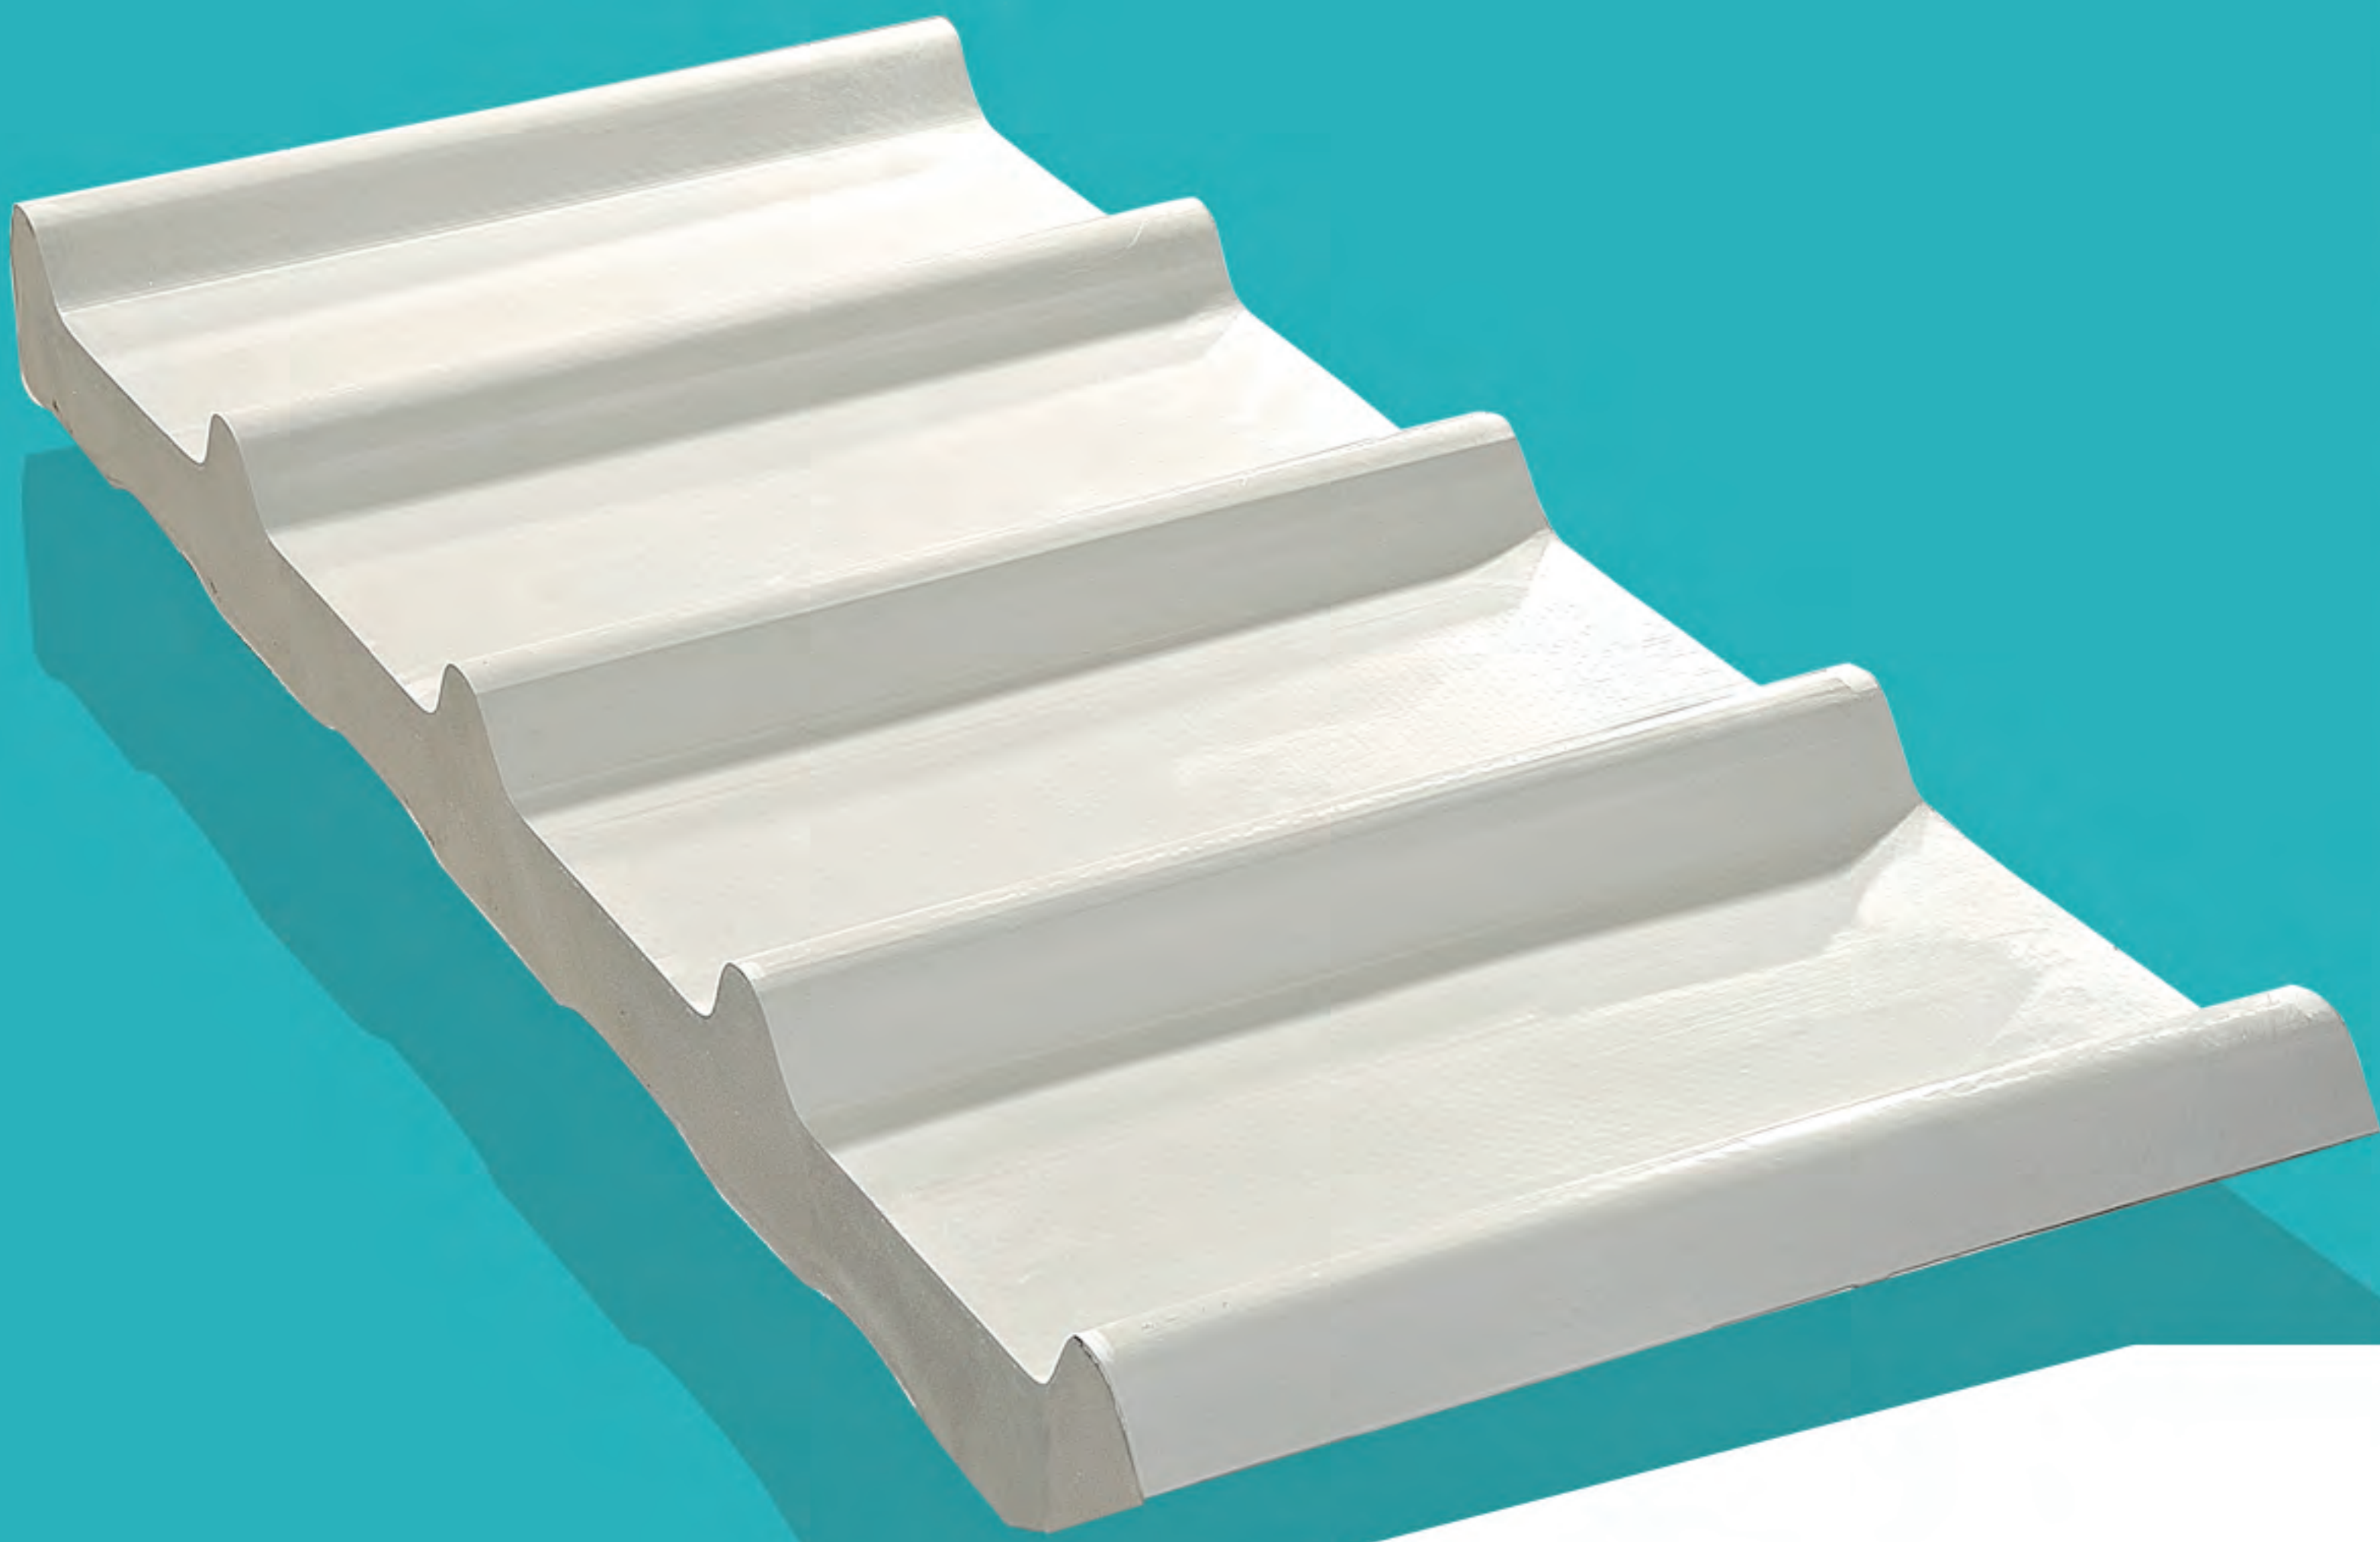

### Durapan Product Types

(As per TS EN 13501 flame retardancy standart)

- Durapan ST ES3d0 PUR 40 mm
- Durapan FR CS3d0 PIR 40 mm
- Durapan ST ES3d0 PUR 50 mm
- Durapan FR CS3d0 PIR 50 mm

### Durapan Product Types

- 4 Ribs 35/1000
- 5 Ribs 32/1000
